NOTES

Play	Note
13	should be a bit wider in your split, as well as kari here.
14	Solid contact with your hands, don't forget to run your feet. It will make the block more effective and lead to more pancakes.
15	This ball was late in my view. Now once the ball is in the air and late you have to make a decision, we know a defender is on the way to make a play especially when the ball is late. The decision is to cut your route short and ATTACK the ball. Whenever we are waiting for the ball to come to us we have to remember that the longer we wait the higher a chance for the DB to make up ground. I blame QB here but i think you had a window to make a spectacular catch type play but would've have to decide earlier to attack.
30	You were open on this play , solid route. I think you can lean a bit more inside to try and get the DB to flip his hips but solid route here.
41	You made the initial contact well, but you lost your balance and db was able to make the play. Gotta make sure you have a hood space and you settle down to block 2-3 yards away from db so you have space to get a good base and then make the block. Inch technique once you settle down it will help you hold the block longer .
42	Timing on the motion didn't look good here but that wasn't the issue QB has to catch the snap. Once the ball is on the turn get on it as quickly as possible.
43	you are WIDE OPEN, QB made a bad decision here.
76	Jump ball you made a good effort.
112	Nice catch good job getting the first down.
