NOTES

Play	Note
10	Split should be at the tope of the numbers at all times no matter the hash or field positioning. Bottom of the number when we are to the short side of the field. Here you should be at the top and Tise at the bottom.
11	The ball should have been thrown to you, wide open and settled in a good spot.
12	Same split conversation, you should be at the top of the numbers.
14	much better split here!!! at the point of initial contact you lost the body position battle. You should break down a bit earlier (2-3 yard away
15	Nice release here i liked the movement and his hands not touching you. get more vertical with your moves to try and get on his feet potentially forcing his hips to flip but either way what you. did was solid.
30	Your are open, good route QB missed you
41	Good effort backside working to get a block.
65	Good catch and solid run after the catch. Dont stop your feet run through contact a lot of players do NOT want to tackle.
71	Nice block DEEP down the field
74	Looks like you over ran the block point here, have to set a good base and then run your feet on the block. Person you were suppose to block ended up making the tackle.
94	waiting to long here, you must get closer to the block point before you settle down to block.
100	You are double covered here not sure why the ball was thrown to you BUT once its in the air gotta do our best to make a play.
110	DB did make contact here, hit both hands gotta come down with it.
